Cambridge, Octob. 11.

THis day his Grace the Duke of *Lauderdale*, attended by the Lord Marquis of *Athol*, was pleased to do the University the Honour of a Visit. The Students and Graduates being placed on each side of the Regent Walk, his Grace was there met by the Vicechancellor and Doctors in their Robes, and invited up to the Regent House by the Orator in a short Address, where he was received with a solemn and elegant Speech of the same Orator, to which his Grace on the sudden returned in Latine a most polite and obliging answer. He was after that together with my Lord Marquis pleased to accept of the Degree of Doctor in the Civil Law. Then his Grace visited several other Colleges, into each of which he was introduced by an Oration; and at last he was entertained by the Vicechancellor, at a noble Dinner in *Trinity* College.

Vienna, Octob. 4. The 29 past, his Imperial Majesty assisted at the Singing of *Te Deum* for the taking of *Philipsburg*; he has not yet declared his Marriage, which is expected every day. It is said that the Emperor has resolved to form an Army of 20000 men in *Hungary* to be employed against the Rebels, which will be commanded by General *Souches*.

Legorn, Octob. 7. Yesterday arrived here a Vessel from *Naples*, the Master sayes, that the 28 past, eight *Spanish* Gallies put in there from *Palermo* to Careen, so that it's thought there will be no further action on the Coast of *Sicily* this year; and the rather, for that the *Dutch* Rear-admiral has received order from the States to return forthwith with their Fleet to *Holland*. The Duke *de Ferrandina*, late Viceroy of *Sicily*, is arrived at *Naples*, on his return for *Spain*. From *Rome* they write, that the Pope had remitted 50000 Crowns by Bills of Exchange to the King of *Poland*, for the carrying on more vigorously the War that Crown is engaged in against the *Turk*; That there is as yet no discourse of a promotion of Cardinals, though there be six Caps vacant; but at the next Creation, *Don Benedetto Pamphilio* is sure to be one, as the Prince of *Savelli* to be declared General of the Gallies.

Rostock, Octob. 14. The 9th instant the Governor of *Demmin* Capitulated, on condition that he might march out with Arms and Baggage, Drums beating, *&c.* and the Garison be conducted to *Stralsunds*; which conditions being granted by the Elector of *Brandenburg*, the *Holstein* Regiment was immediately admitted into the Town, yet so, that the *Swedes* and *Brandenburgs* should continue in possession of their respective Posts, until the Garison were actually marched out. The Electors Forces are ordered to go to *Stetin* to invest that place, but the Emperors Troops are going into Winter-quarters.

Basle, Octob. 12. The *French* Army, under the command of the Duke of *Luxemburg*, is at present encamped at *Zepheym*, within six hours of this place. Major General *Schuetz* is posted with eight Imperial Regiments on the other side of the *Rhine* at *Wyl*, about a League and a half from hence. It seems the Duke of *Luxemburg* sent to the Duke of *Wirtemberg* to receive a *French* Garison into *Montbeliard*, to oppose the passage of the *Imperialists* into the *Franche Comte* by that way, but the Duke refused it, being resolved to continue Neutral, and to defend the Town with his own Soldiers. The *Suisse Cantons* begin to be very much alarmed at the near approach of the Armies towards their Territories, and have therefore resolved to hold a Council of War at *Baden*, to consider what is best to be done in the present conjuncture of affairs.

From the Imperial Camp at Heitersheym, Oct. 11. On the 9th instant the Duke of *Lorrain* decamped from the Neighborhood of *Friburg*, and yesterday posted himself here between *Stauffen* and *Nyenbourg*; it is said he intends to fortifie this latter place, the better to block up *Brisac* on the side of *Basle*; and after to march towards *Rhinfelden*, to pass the *Rhine* there, where a great quantity of Bread is providing for the use of his Army, and the Bridge of Boats is almost finished.

Strasburg, Octob. 12. The Marquis of *Foyeuse*, who was lately sent with a detachment from the Duke of *Luxemburgs* Army towards *Lorrain*, continues yet at *Ingwiller* and *Neuwiller*, without being able to pass *Lutzelstein*, and 'tis thought he will be forced to return to the *French* Army. The Electoral Prince of *Saxony* is arrived with a Body of 1400 Horse in our Neighborhood, and continues his march towards *Basle*, to join the Duke of *Lorrain*. General *Dunewaldt* is arrived at *Offenbourg* with five Regiments from the Imperial Army, and is this day marched towards *Spire*, to join the *Lunenburg* and *Munster* Troops, which are marching towards the *Saar*, and are to be commanded in chief by the Duke of *Zell*. The two Armies lie within half a League of *Basle*, the *Rhine* only between them; the *Imperialists* being encamped between *St George* and *Wyl*, and the *French* with their Artillery and Baggage, where the Duke of *Luxemburg* is in person, between *Blos* and *Itegenstheim*, without any Action passing between them.

From Limbourg on the Lhin, Octob. 14. This day the Troops of the Duke of *Zell*, consisting in 34 Squadrons of Horse, and 10 of Dragoons, will begin their march towards *Braubach* and *Lahnstein*, and so towards the *Saar*, where they will be reinforced with 18 Squadrons of Horse, under the command of General *Dunewaldt*. We are assured that those Troops, together with those of the Bishop of *Munster*, march directly towards *Deux-Ponts*, with design to take their Winter-quarters in that Neighborhood.

Cologne, Octob. 16. We have advice by an Express from *Coblentz*, That the *Lunenburg* Troops which have been for some time in the *Westerwalt*, marched 2 dayes ago towards *Braubach*, and that they intended to pass the *Rhine* at *Mentz*. The Duke of *Zell* has ordered the great Cannon he left two years ago at *Strasburg*, to be sent to *Coblentz*, where he will take it in his passage towards the *Moselle*. The Duke of *Newbourg* will for the future make his residence at *Newbourg* on the *Danube*, and the Prince his son at *Dusseldorp*, as Stadtholder of the Dutchies of *Juliers* and *Berghen*. The Emperor has resolved to form an Army of 24000 men in *Hungary*, to be maintained by those People, and employed solely
